GRAYLING, MICHIGAN, SEPTEMBER 27, 1923 VOLUME XLV

NUMBER 38

THE FIRST SINCE 1917. FIRST GAME SCHEDULED WITH MAN-CELONA.

Grayling High school has a football team this year for the first time since the year 1917. Altho this is the first the year 1917. Altho this is the first time these players have ever had a football in their hands, Coach Clifford Crane says they are doing well. They have been working out everyday for the past two weeks and the team promises to do their part in upholding Grayling's athletic record of winning most of their games. The boys are digging in and showing plenty of enthusiasm.

The first game will be played with Mancelona at that town next Saturday, Sept. 29. It is expected that the following players will be in the lineup at the Mancelona game:

Edgar McPhee. Clarence Ingalls. Ora Ingalls. Stanley Matson. Wesley LaGrow. Lee Morency. Vernon Klingensmith. Charles Isenhauer. Rufus Edmonds. George Granger

Henry Ahman.

Gus Meyers.
Mr. Crane and the squad are working hard to get a strong and fast line up and everything looks promis-ing for a winning team. Besides the above players there will be others eligible later on.

Football is great sport altho many people do not understand the points of the game. The only way to become familiar with this fine sport is to attend the games. Why not get behind this team and help it to bring home the bacon. The boys play better when they know the home people are behind-them with their enthusiastic interest and with their financial support.

and clearing specialist of the Michigan Agriculture College, Sodatol, the new war salvage explosive, is one of the safest known explosives on the

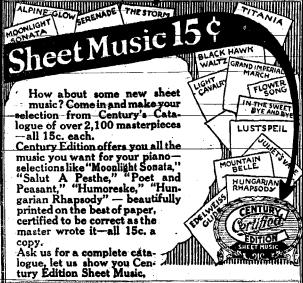

"By safe," declared Mr. Livingston "I mean that it is comparatively safe -that is, in the sense that we consider any explosive 'safe' which is in use

He claims that Sodatol is more eas lly exploded than pictic acid which was used extensively by the farmer was used extensively by the farmers during the past two years. This is proved when it is known that Sodatol only requires a number six cap to detonate it, whereas pieric acid took a number eight cap. This latter fact was detrimental to its general use. There is no danger, whatever, in handling Sodatol providing that ordinary care used in handling any explosive is exercised.

One of the chief requisites in the handling of Sodatol is that it be kept in a cool-place. Any explosive when heated becomes a treacherous thing to handle. It should not be exposed

Sodatol, as with pieric acid, will not cause a headache to the user if handled in an out-of-doors operation. Lots of fresh air will dispel quickly any odors or gases from the explosion. Sodatol does not differ from any commercial explosive in this respect. However pieric acid stained the hands yellow, and Sodatol, it is claimed, not only will not stain the hands but it will cause no other bad effects.

WANTED A nose guard. Apply athletic editor of the Tatler. Debating.

We are ready for another crack at We are ready for another crack at debating honors, although last year was not one of many victories it was sufficient to introduce debates in G. H. S. What we want this year is two teams so as to have some opposi-tion. That being the case we can have a preliminary debate before the Assembly, thus becoming more familar with the subject. The question for debate is, Resolved "That the Ship Subsidy Bill Should Be a National Policy."

All work and no play makes Jack a dull boy, so says Mr. Smith, but he advocates organized play. Everyone is urged to enter some form of organized play. It develops leadership. Marie Phalen visited Clarence Ingls yesterday in school.

Got Any Bumble-Bee Feathers? A man walked into Olsen's Drug

A man walked into Olsen's Drug store and was met by the smiling face of our High School quarterback, "Something I can do for you?" inquired Stanley. "Why yes, give me a package of Arabian Taxicabs," the man said. "Well—well to tell the truth I don't think we have any but I will find out for sure." So the proprietor was summoned but no Arabian Taxicabs could be found. "Never mind then," the man answered, "Give me a package of Camels."

Let's all get together Friday p. m. and give the boys a snappy send off for they go to Mancelona Saturday seeking honors on the Gridiron. Let's have a mass meeting. Arouse some

HEADS LEGION AD. MEN'S POST

Maj. Reed Landis, One of the Airplane Aces, Chairman of Com-mittee on Aeronautics.

Maj. Reed G. Landis, chairman of the American Legion's national committee on aeronautics is a man quali-fied to speak and act on this subject, according to his war record. Major Landis has nearly a dozen enemy air planes to his credit, and was in some

stirring engagements.
Of course great deeds are to be ex pected of the son of such a virile American figure as Judge Kenesaw Mountain Landis, but the young man

has won a record "of his own."

Major Landis was a member of the old First Illinois cavairy when the troops massed on the Southern border in 1916. Though discharged from service there, he was recalled in 1917,

to the air service, becoming a student of the ground school. He took dying instructions at the University of Illinois flying field, was sent to England and assigned to the Fortleth squadron, British expeditionary squadron, British expeditionary forces, then flying the "single seat-He necounted officially for ten Hun planes before he was relieved

training camp, only to be transferred

from the British service to take command of the Twenty-lifth squadron of the American forces. After commanding this organization for a short time, he was ordered home and was miliait in Gréatal Woods, bisiduita ters staff at Chicago as departmental air service officer.

Landis was awarded the highly cov-eted British Flying Cross, a decora-tion much sought by all English aviators. As a writer, he has congributed

cial articles on the air service.

Major Landis has been commander of the Advertising Men's post of the American Legion in Chicago, and has been called on to speak before many Legionnaires throughout the country in addition to his duties as chairman of the national aeronauties com-

RECPEN BONUS CASE

Result of Minnesota Supreme Court Decision Likely to Affect "Non-Residence" Ruling.

Claims of from 10,000 to 15,000 vet disallowed by the bonus board on a "nonresidence": ruling, may be re-opened as a result of the recent decision of the state Supreme court in the case of Everett Baum.

In its ruling the Supreme court held that a person temporarily residing in Minnesota at the time of the call for registration who registered and who thereafter left the state but returned the inducted by the draft board into the service, is entitled to the state

Baum, who was born in Pennsylvania, came to Minneapolis in May, 1917; obtained work and registered for the draft in June. The following January he went to Oregon and Washing-ton, but returned in July at the call of the draft board. He entered the serv ice and a year later was honorably dis

charged.

The bohus board disallowed his claim on the grounds that he was not a bona fide resident of Minnesota. The Supreme court ruled that he was a resident because "the place of resi-

It is pointed out by American Le gion members that if this is the case, the 10,000 or 15,000 similar applications involving nearly \$8,000,000 from others, who constituted the state's ficating population on registration day June 5, 1917, and who were subsequently inducted, may also be affected y this decision

Post Meeting Held in Bus.

Ropping into a "rubber-neck" wagon when their meeting place was unayatlable, members of the Sergeant Jasper post of the American Legion in Wash ington, used a most unique method in the transaction of husiness of the or ganization. As the big bus sped by ringing "ayes" and "noes" were heard, causing much wonderment. Heavy traffic of the streets caused a mix-up in two or three votes, but the meeting was successful, according to the mem-bers - who attended. This meeting place should be popular.

The second of the second of

Best Feed Is Essential

Even With Dairy Cows The best results from dairying follow the combination of good cows and the right feeds. Without a correctly balanced ration even a good cow cannot yield profitable returns. Because of this fact the dairy specialists at the Missouri College of Agriculture are able to put dollars into the pockets of the dairymen who will apply their recommendations.

"Profitable production in dairying must begin with the feed," says E. M. Harmon, extension dairy specialist. "Without the right feeds no animal can make milk and butterfat efficient. ly, no matter what her breeding. It is essential to have balance in the ration. 'The cow's body and her product -milk-are both made up primarily of four kinds of constituents: Water, protein, carbohydrates (and fats), and mineral matter.

"The water supply is of utmost importance. As a general rule the min-eral requirements will be satisfied if plenty of legume bays are fed. This leaves the protein and carbohydrate requirements to be satisfied. Either

of these cannot replace the other any more than the air in an automobile tire can replace the gasoline in the

"Some feeds are high in protein while others are high in carbohy-drates. If we feed more of one than necessary to balance with the other the excess will simply go to waste For instance an average farm ration of 25 pounds of corn silage, 8 pounds thoothy hay, 4 pounds of corn chop and 1 pound of wheat bran supplies enough carbohydrates to maintain the hody requirements of a 1,000-pound cow, and produce 20 pounds of milk It supplies only enough protein how ever, to produce 4 pounds of mill after maintaining the body,
"By substituting a legume hay for

the timothy; sidding a pound of cot-tonseed meal and a pound of bran and reducing the corn chop to 3 pounds we get a ration that will supply just the right amounts of both protein and carbohydrates to maintain the cow's body and produce 20 pounds of milk?

Dairy Farmers See Need of Well Built Ice House

The dairy farmers who smile during the hot days are those who had the foresight to lay in a supply of ice last

Many other dairymen now see the advantage of having a large, cheap supply of ice to keep their milk cooled and are therefore thinking of erecting their own icenouses. A good house can be built on the following plants says. E. R. Gross, professor of rural engineering at the New Jersey State College-of Agriculture: The floor should be publies or gravel

to afford drainage. The foundation of well into the ground and the capacity of the house will be increased if the floor is placed at the bottom of the foundation. Make the foundation 9 to 12 inches thick. Use 2 by S-inch studding, with sheathing, building pa

per and weather boarding outside. Sheathing alone on the inside will make a good house, but it is still bet ter if the inside wall is constructed of two_layers_of_boardings_sheathing against the studding, and the sheath hig covered with tongued and-groover boarding, with a layer of paper in be Aween. An ordinary-shingle roof left open at the caves and with a ventila tor at the ridge completes the building. time and one-half to two tons of tee is needed for each cow. One ton occuples 50 cubic feet.

The packing of the ice is probably the most important of the things to be observed in ice storage. The ice must be cut evenly so it will pack closely, and crevices should be filled with chipped ice. The ice block, if properly packed, is practically one solid mass of ice. On top, bottom and all sides the ice; pack not less than 12 inches of sawdust, chopped straw or other in-

Saving the summer and early fall farrowed pigs, with a view to adding 100 pounds to their January weight and selling during late March at a weight of 200 pounds or better assures an income at a time when farm re-celpts are light and the price for hogs usually good.

Three Hog Essentials.

Good, judgment, a fertile soil and labor are three essentials to success in raising hogs. Omit any one of these and the venture will stand up like a three-legged stool with a leg missing.

Cult out those that show signs of allment and disease. Get rid of them,

Cost to Feed Mongrels

. It does not cost any more to feed pure breds than it does the mongrel or mixed type. In the case of the mongrels there is no uniformity in size, shape or color of the eggs and they will never bring a premium for hatching purposes, as do the eggs of pure breds.

Mash for Young Ducks. Young ducks should be fed a mash without the grain ration until they are well matured. An important part of the ration is a good grit.

Not Cleanest Man.

Myou go into a man's cow stable and find everything in a fifthy condition you are safe to make the guesa that the fellow himself is not the cleanest man in the world.

-Planning-Dairy-Barn, Forget that you need exercise when planning the dairy farm. Cut out every step you can.

Tractor and Work Take care of the tractor and the tractor will take care of the work.

Wife Gives Facts in Case of Her Husband

everywhere.

Charles, 80 Lordan St., Battle Creek,

"Tanlac has been my husband's favorlte medicine for six years. He first took it for chronic indigestion and it million bottles sold. was surprising how it relieved him and built him up. Occasionally he takes it to sharpen up his appetite and it keeps him eating and feeling good.

Easily Explained.

The man who ran the elevator of the skyscraper was talking to a pas-

"The judge certainly did soak him," he said. "He sentenced him to three years and ten days. Now I understand the three years all right; but what the ten days were for I'd like to know?"

"That was the war tax," said a quiet citizen who got aboard at the tenth floor,"—Treat Em Square.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why t is that so many products that are ex-ensively advertised, all at once drop out of sight and are soon forgotten? The tensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the mānufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited to those who are in need of it. A prominent druggist says. "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root-is due to the fact. so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder aliments, corrects uripary troubles and neutralizes the uric acid

pary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Sevamp Root by parcel post. Address Dr. Kilmer & Co., Ringhamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Advertisement.

The Worm Turns. "Is this hot enough for you?"
"Cut it out! I'm fed up on those questionnaires."

"My husband is a great friend of Taniac and of late I've been using it depressed, but Taniac has stopped all myself and it's made quick work of that and my health is just glorious my troubles, too," said Mrs. H. M. charles, 80 Jordan St., Battle Creek, just like it has us, and I can't recom-

mend it too highly. It's grand.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale

Mr. B. writes: "Three-year-old Allan had been put to bed for his regular afternoon nap. While lying there trying to hold off the sandman his pet cat jumped upon the bed and remained there purring loudly. After gazing at it a few minutes Alian ex-claimed, "Hey, you! Why don't you shut off your motor when you're standing still."-Boston Transcript.

Through a Sieve Woven Finer Than Silk

Raw materials of which portland cement is made come out of the ground usually as solid rock.

They must first be crushed, ground and reground until at least 85 per cent of the resulting powder will shake through a sieve that will actually hold water.

This sieve is considerably finer than the finest silk fabric. It has 200 hair-like bronze wires to the inch. That means 40,000 holes to the square inch.

But the several crushings and grindings necessary to reduce solid rock to this extreme fineness are only the beginning of cement making.

The powdered materials must then be subjected to intense heat for several hours in huge rotary kilns. Here they are half melted and become a substance much harder than the original rock—clinker, it is called.

Then the clinker must be crushed and ground until at least 78 per cent of the resulting product will pass through the sieve woven finer than silk. This is portland coment.

More than 80 power and fuel consuming operations are necessary in cement making. The electric power alone used in producing a barrel of portland cement would, if purchased at usual household rates, cost \$1.70.

Few manufactured products go through so involved or complicated a process as portland cement. And it sells for less per pound than any comparable manufactured product.

MRS. COFFMAN ILL SEVEN YEARS

Saved from an Operation by Lydia E. Pinkham's Vegetable Compound

Sidell, Ill.—"I was a nervous wreck.
I was suffering from a pain in my left
side, which was almostunbearable, and
I could not even let
the bed clothing rest
on my body at flight.
I had been sick for
seven years, but not
so bad until the last
eighteenmonths, and
had become so rundown that I cared
for nob ody, and
would rather have
died than live. I
couldn't do my work without help, and
the doctors told me that an operation
was all there was left. I would not
consent to that, so my husband-brought
me a bottle of Lydia E. Pinkham's
Vegetable Compound and begged me
to take it. I have taken fourteen botties of it and I feel ten years younger.
Life is full of hope. I do all my housework and had a large garden this year.
I never will be without the Vegetable
Compound in the house, and when my
two little grils reach womanhood I intend to teach them to take it. I am
never too busy to tell some suffering
sister of my help, and you can use my
name and letter to spread the good
newsof Lydia E. Pinkham's medicines."
—Mrs.Ida M.COFFMAN, R.B.2, Sidell, Ill.

GIFT OF THE DESERT

BY RANDALL PARRISH

Copyright by A. C. McClurg & Co.

SYNOPSIS.—On the isolated Meager ranch, on the southern border, Daborah Mercdith, trained nurse, if he in attendance on Mrs. Meager, whose husband has recently been kilfed. Immediately after the death, Bob Meaker. Mrs. Meager's istepson, arrives and takes possession. He itsults beborah and she resolves to leave, but there seems no possibility of her getting away. Meager groats over behorah's plight, He tells her he has sent for a justice of the peace, who will marry them tomorrow. Horrided, the girl secures a revolver. The justicer Cornelius Garrity, seoundrel and bosom friend of Meager, arrives with a party, among them the "Frisco Kid," notorlous desperado. Despite Delugrah's protests, the justice performs the marriage ceremony. She escapes and reaches her room. There she stuns Meager with the revolver and rushes to the stables, bodjing to secure a horse and escape. There, she meets, the "Frisco Kid." Somehow he inspires her with confidence and she explained the situation. The "Kid." Gomehow he inspires her with confidence and she explained the situation. The "Kid." Cells her his name is Daniel Kelleen, that he is no friend of Meager. They ride off together into the desert. Presently she realized that Kelleen is the "Frisco Kid." but doesn't fear itm. Deborah hears the story of the "Frisco Kid." SYNOPSIS.—On the isolated His first words sent a thrill through er protection.

He reined in his mount sharply, vinced of the man's innocence. In her protection.

Buy Your Tires from a DEALER

At the Latest Prices—The Lowest ia History

You will find the Firestone Dealer one of the stable business men of your community. He offers a clean, fresh stock, backed by a well organized service. He wants you as a permanent customer. That is the reason he sells Firestone

tires. He knows and has plenty of proof that they are the best tires on the market. He can give you the greatest value and thereby retain your trade for years.

Every day you find new proof of this unequalled value. On the 15th of this month, Firestone Tires set two new dirt track records at Syracuse when Tommy Milton slid around four turns at every mile and covered the 100 miles in 75 minutes, 33 hundredths seconds. He also established a new world's record for one mile by covering it in 42 and 28 hundredths seconds. The next four cars to finish were also equipped with Firestone Gum-Dipped Cords. Each one of them

went the entire race without a stop. This and every other important race this year was won on Firestone Gum-Dipped-Cords and Steam-Welded Tubes. Such performance gives you conclusive proof of their strength and durability.

Not only do race drivers use Firestone Tires as protection to their lives and the surest way to victory, but the largest tire buyers in the world insist on and buy Firestone Tires for economy and service. These buyers include the leading car manufacturers, the biggest commercial car operators and the taxicab and motorbus operators. 57,639,714 tire miles were sold to taxicab and motorbus operators in the month of August.

Think this over. You cannot afford to accept anything less than Firestone service and economy. You can buy-this service and economy from any of the dealers listed below.

The Quality Store

The Maximum of Proved VS. Many Extravagant Claims Intrinsic Value of Superiority

So many announcements of new model cars contain extravagant claims for the same superiorities that it is puzzling to the buyer to know which value is real and which is only a claim. This year the issue has been confused by the introduction of mechanical changes, some of which have been rushed into production while still in the experimental stage—and then imme-

ooked and great stress placed upon uni

looked and great stress piaced upon unimportant details.

But the man who intends to buy a motor car need not let this confusion or this glamour of publicity lead him to make a mistake or risk satisfaction in his purchase.—The automobiles themselves are available for comparison.

See and be convinced. Riding is believing. As an aid to intelligent buying we offer the collowing suggestions:

following suggestions:
Place the 1924 model Studebaker Light-Six

Place the 1924 model Studebaker Light-Six Touring Car at \$995 alongside any car you may select as belonging in the same class. Every car looks well in the pictures—most cars make a good impression in their own show windows. The Studebaker Light-Six looks a winner alongside the best-looking competitor you can find. And it's larges, more substantial, roomier, more comfortable looking—and is more comfortable.

comfortable looking—and is more comfortable.

Compare the top. Look inside and out. The

Studebaker top is sturdily built. Has four stout

cross bows. Top material is same as is so satisfactorily used in the Big. Six. Notice the fit,
feel the quality. The rear curtain is one-piece—
has no seams—with a large rectangular window

bound by an energed grouding.

has no seams—with a large rectangular window bound by an enameled moulding.

Comparathe body. Studebaker has a roomy, substantial, carefully made body—all-steel even to its framework, which permits a finish in baked enamel. A depressed belt line runs around the body and through the hood and radiator, adding to its distinctive appearance.

Comparate the one-piece, rain-proof windsubstantial, carefully made body—all-steel even to its framework, which permits a finish in baked enamel. A depressed belt line runs around the body and through the hood and radiator, adding to its distinctive appearance.

Compare the one-piece, rain-proof windshield, with built-in cowl lamps, with the ordinary two-piece windshield with rubber strip

The Studebaker chassis is as far superior to any other motor car chassis in its price field as Studebaker upholatery is to other upholatery as the Studebaker body is to any other motor car chassis in its price field as Studebaker upholatery is to other upholatery as the Studebaker chassis is as far superior to any other motor car chassis in its price field as Studebaker upholatery is to other upholatery as the Studebaker chassis in its price field as Studebaker upholatery is to other upholatery as the Studebaker body is to any other motor car chassis in its price field as Studebaker upholatery is to other upholatery as the Studebaker body is to any other motor car chassis in its price field as Studebaker upholatery is to other upholatery. Come in and see the Light-Siz. Test its price field as Studebaker upholatery is to other upholatery. A superior for any other motor car chassis in its price field as Studebaker upholatery is to other upholatery. The studebaker upholatery is to other upholatery as the Studebaker upholatery is to other upholatery. The studebaker upholatery is to other upholatery as the Studebaker upholatery is to other upholatery. The studebaker upholatery is to other upholatery as the Studebaker body in its price field.

Come in and see the Light-Siz. Test its price field.

613

that leaks in every rain and always obstructs
the driver's vision. Notice the large cowl ventilator that is quickly operated by merely
moving the regulator backward or forward.

Compare the Studebaker door trimmings
and fittings with the door fittings of other cars.
Notice that the door pocket flore have weights

Notice that the door pocket flaps have weights to hold them in position. Man-sized door handles and latches, positive-action door locks

that catch with a snap and stay closed. Heavy
hinges properly located and proportioned.
Highest grade triuming material instead of
painted cardboard. Fastening nails concealed.

Compare the aluminum-bound linoleum that
is neatly fitted and fastened to the floor boards
of this \$995 Studebaker Light-Six with the
rubber mats that cover the cheap, loosely-fitted
floor boards in many other care.

rubber mats that cover the cheap, loosely-fitted floor boards in many other cars.

Compare the cheap robe rail (sometime) the Studebaker nickel-plated rail. Compare the forty-cunt footrest with the comfortable, carpet-covered footrest, supported by polished aluminum brackets, in the Studebaker.

These comparisons are of features that can be compared to the comparisons are of features that can be compared to the compared to the

seen. There are many more down under the surface that could be mentioned, such as the machining of all surfaces of the crankshaft and connecting rods of the Light-Six motor. This is largely responsible for the practical absence of vibration in the Studebaker Light-Six. This an exclusive Studebaker practice on cars at this price.

If competition is so far inferior in its visible

parts, it is a certainty that the hidden parts which really determine the satisfaction of a car

will be equally inferior.

The Studebaker chassis is as far superior to

Sensational Doings in Governor Walton's War on the Klan in Oklahoma.

STATE UNDER MARTIAL LAW

Legislature Plans to Hold Extra Ses sion-Spain Now Ruled by Dictator and Directorate-Baldwin and Poincare Confer-Berkeley, Cal., is Swept by Flames.

BY EDWARD W. PICKARD O KLAHOMA has become the center of the war against the Ku Klux Klan. Developments there last week were sensational, and the fu ture is looked to not without some apprehension. Enraged by more of the floggings which are reasonably supposed to be committed or incited by the Klan, Gov. J. C. Walton announced that a state of insurrection and rebellion against the laws and constituted authorities of the state existed, and therefore he proclaimed martial law lute martial law for Oklahoma City Units of the National Guard were called out and a military commission set up and began the examination and been seen in the United States for

An order was issued prohibiting "all public meetings, publications, literature and verbal expressions tending to create opposition to the enforcement of martial law in Oklahoma County, and consequently the newspapers there have been cautious. However, the pub-lishers of several of the largest dailles in the state have signed and many of the papers have printed an address to the people of the United States de claring that "the supreme issue in Oklahoma today is constitutional government or despotism," and asserting that "Governor Walton, by his acts, has attempted to nullify rights guaranteed under our Constitution, and to halt the lawful processes of republican gov-

many years.

In another address the editors arged number of the legislators have been planning to do. Walton says he will planning to do. not permit it, and is quoted as declar-ing that if the lawmakers assemble be will build a stockade and put them in it. Notwithstanding the threat, al-

most a majority of the members of the dencing the direct object of establish-

ver the commonwealth."

Walton has strong political support. league, but some of these, especially men are not openly combating the govder cover with great energy, and it is control a special session of the legis Their flery crosses continued to blaze over certain buildings in Okahoma City until Thursday, when

Walton ordered them struck down. Walton, if he reads the news from Europe, may seek to emulate Benito Mussolini and Gen. Primo Rivera, but if so he will have to learn that there is a vost difference between the cor ditions and peoples in Italy and Spain and those in the United States. dictatorships are necessary or desired in any of our commonwealths.

SO.FAR, the coup d'etnt of the milgether successful. King Alfonso, yielding perforce to the revolutionists, cre ated a national directorate and mad Primo Riverà its president with virtu ally dictatorial ally dictatorial powers. The posi-tions of premier and cabinet ministers

innounced its five principal objectives First, to exterminate syndicalism

Second, to crush the separatist movement in Catalonia and Basque prov

Third, to prosecute a victorious campulga in the Spanish zone in Morocco; Fourth, to establish an honest, efficient government:

Fifth, to make guilty politicians as well as officers suffer for the big Me Illa defeat.

Rivers called on the country to form "Gran Somaten" or militia pat-rned closely after the Italian Fascistly to number 450 000 With this organization, responsible to him alone, he proposes to protect the "established interests' of Spain. The International Communists who have been began active work there in 1918, have realized that the galae is up for the present at least, and have been fleeing

week. In pursuance of the plan for on the way to \$10,000,000, a vigorous campaign against the Moorish rebels the Spanish fleet on Wednes day began to bombard the hills above Allucennas bay with gas shells, to During the first ten weeks of the new clear the way for the landing of a fiscal year, ending September 15, the large expeditionary force. General Alzpuru, the new commander in chief in Morocco, started to organize an offensive on the western-flank, The Spaniards feel it necessary to

demonstrate their ability to govern a few days the Tangier conference in London will open, when Spain will de trial of civilians-a thing that has not | mand permission to rule the Tangier The United States is interested in that conference and has notified Great Britain, France and Spain that it will not accept any settlement of the future control of Tangler which hinders the establishment there of American marine conting and olling bases. An interesting story from Madrid says the old Spanish govern-meni was conducting negotiations with England by which Gibraltar was to be traded by Great Britain for the valu able harbors of Tangler, Centa and Melilla and that news of this reached the military leaders of Spain and has

tened the revolt.

To COMPLETE the record of the dictators, it may be said that Premier Mussolini of Italy is "sitting pretty" in his disputes and negotiations with Greece, Jugo-Slavla and and the members of the legislature to meet immediately, and this is what a large number of the legislators have been arathous, for the Janina murders by apologizing for them, saluting the flags of Italy, France and England, and attending a solemn requiem mass in the Catholic cathedral of Athens for the slain Italian officers. Diplomatic lower house have signed and issued ing Flume are said to be progressing a call for a special session for the nulleably, but the government of that so-called independent state resigned fories, usurpations and blunders, evi- appointed General Giardini, third in in command of the Italian army, as ing an absolute tyranny and despotism military governor. The American army and navy representatives there are exceedingly active in the relief work, and at home the Red ers were caught and locked up last | Cross fund is growing daily, being well

> CHEERFUL news comes from Washington in a treasury statement. government reduced its usual expenses \$42,000,000 and increased its income \$29,000,000.

> The -increased-revenue included climbs of \$12,000,000 in customs and \$25,000,000 in income taxes. Miscellaneous internal revenue increases showed \$239,000,000 or a decline of about \$5,000,000. The total income tax collection figure was given as \$124,000,000.

> Interest on the public debt was only \$38,000,000, a reduction of \$12,000,000 In general expenses for legislative and legislative departments, a decrease of \$20,000,000 is shown, reducing the cost to \$425,000,000,

> The shipping board was one of the few departments showing an increase in expense: It climbed to \$21.466,000, an increase of \$6,000,000.

> Refunds of customs and internal evenue receipts totaled \$30,000,000, but this was \$12,000,000 less than in the same period last year. Railroad claims settlements caused withdrawamounting to \$18,900,000, as against \$21,000,000 last year.

> U NITED STATES Prohibition Com-Congressman Hill of Maryland, says it is the intention of the government "to interfere as little as possible" with the right of the farmer to make cider. He continues: "Compared with the abuses arising from the manufacture of distilled spirits and fermented liquors, violations of the national prohibition act arising from the practices of farmers and of manufacturers of cider and fruit juices are practically inconsequential."

Great Britain has replied to Secreagreement on ship liquor and liquor anuggling, including extension of the search limit to twelve miles, and the reply is described in Washington as being "not sympathetic" to the plan. However, the British government will submit the question to the imperial conference which meets next month

WHEN the new dail of the Irish Free State met in Dublin, every one of the 109 members who had taken the oath of allegiance was present, and they unanimously re-elected Cosgrave president of the state. Forty-four Republican members were absent, eighteen of being in prison. An appeal by a Farmer member that these rebels be permitted to meet and decide their policy was indignantly rejected by Cosgrave and others, who declared there would be no compromise with

M ORE than fifty blocks of the bes residence section of Berkeley Cal., were swept by flames early week, and between 12,000 and 15,000 persons were made homeless The property loss was probably about \$5,000,000. The city is the site of the University of California, and one of the most attractive in the West. Three other smaller California towns were burned, all the conflagrations originating in forest fires.

The coffee tree begins to bear when together. The meat of the fruit is about three years old and it convalueless, so when the fruit is gathered it is dried so that the seeds may e easily removed.

How coffee first came to be used as a drink is not known, but it has been so used for at least a thousand Europe about three hundred rears ago.

Fortunate Circumstances Perhaps have in common is an ability to se one another's duty .- Duluth Herald.

Pony Express Makes Record. San Francisco-A record-for cover ing the 2,180 miles between St. Jo

seph, Mo., and San Francisco, horseback, of 158 hours and 8 min utes' riding time, has been made by the revived Pony Express. The United States mail, which was carried out of St. Joseph by horseback on Au gust 31, arrived in San Francisc Sept. 2. The record time of the old Pony Express was beaten by: 42 hours. However, during the revival riders were changed every 10 miles, while in the old days every 90 miles.

COOLIDGES FOND OF PLAIN FOOD

'Mac," Their Boston Waiter. Talks About Their Simple Gastronomic Tastes.

Boston, Mass.-Much has been written lately about the simple tastes and unassuming ways of Calvin Coolidge. now President of the United States, and of Mrs. Coolidge, and those who are well acquainted with them say this simplicity permeates their life. When Coolidge was governor of Mansachusetts he and Mrs. Coolidge made their home at the Adams house, and their regular waiter there, "Mac," who is known to many hundreds of Bostonians, told a writer for the Boston Sunday Advertiser a lot about their gastronomical tastes. Said he:

"Their breakfast order was always the same-Two Special No. 1's, grapefruit for Mrs. Coolidge and orange for me.'

"Special No. 1 never varied. It consisted of two small pots of coffee, graham muffins and fruit. "Mr. Coolidge would give the order and call for a clean glass and a whole orange. He would squeeze the orange himself into the glass, and drink the

Silent at Meals. "Mrs. Coolidge always had half a grapefruit.

"They were generally alone at breakfast, as their boys were at school and only visited them in vacation time. Once, though, when the—boys were— there, they wanted ham and eggs for— breakfast.—Mrs. Coolidge ordered—18 for them, but when the governor found it out, he frowned on giving the kids meat for breakfast.

"They were seldom at my table for lunch, as they were both often gone all day. But they would be back for

dinner, unless they were dining out.
"Then Mrs. Coolidge used to order a chop—the way you do," interpolated "Mac," who has an uncomy memory for the likes and dislikes of every one of his patrons.

"Sometimes she would have a steak. But Mr. Coolidge always made his dinner on cereal-usually grape nuts and ten or milk-"He was just as quiet at their family

he is in public life. Hardly ever said a word. Breakfast over, he would go away in silence, "They seldom had guests, except Mr.

and Mrs. Frank W. Stearns, who were with them frequently, "Sometimes there would be one or two others with them at dinner. On those occusions Mrs. Coolidge would try every way in the world to get him to join in the conversation. Nothing doing. He would look and listen, but

hardly ever opened his mouth-except

for his grape nuts. Once in a while he

would shoot a little smile—like this" and for a fleeting instant "Mac" was the living image of the President. Lapsing back to his natural expres-

sion, which is intense but amiable, 'Mac" continued: "He is a hard man to get at, if you know what I mean. - But when you once do get at him, you find he tone of the best hearts in the world.

All Liked Mrs. Coolidge. "But for kindness and a charming manner combined, Mrs. Coolidge was the one. Every waiter in the dining room liked to serve her. She was always considerate, always appreciative for anything done for her. Coolidge once knew you, she knew you everywhere, no matter where she happened to meet you. In the hotel corridor, or in the street, she would al-ways bow. She's a fine woman,

"I used to look at those boys, and their good manners, and wonder how she did it. But then, bringing up (Six little McKeoughs, remem-

ber.) "I said to one of my boys the other day, 'Look at young Calvin Coolidge. His father's President of the United States, and he's looking for farm work at \$3.50 a day. I suppose if I was president you'd be wanting to take it

easy in the White House.

"You must go to the healthlest neighborhood you can find," said the eminent specialist to Mr. Forsythe. "And when you get there you must stay there for six months and have a thoroughly good rest.' In due course Mr. Forsythe arrived

at the senside town he had selected and inquired of one of the old inhab-"Itants if it was a really healthy neigh-"Well, you see me," said the old

man, who was a fine specimen of health and vigor "when I came here I couldn't walk across the room and hadn't the strength to utter a single word. I had scarcely a hair on my head and I had to be lifted on and off the bed."

"Ah, you give me hope," said the valid, "How long have you been invalid.

"I was born here," was the reply.

Missing Links. The owner of a coconut plantation has trained a monkey to climb the trees and gather the nuts. But that is too much like his usual occupation to count for much. In China they had done better than that a century ago. for there they had been trained to pull rhubarb and gather rice. In Abyssinia they had simian torch-bear. ers for supper parties, but the station master at Ultenhage, a small wayside station in Cape Colony, did better and trained a bab oon to act as signalmen and work the switches.

Bold Economy.

I have been a second to be a second

Italy is a land of lever railway crossings. Very few roads go over or under. Hitherto each crossing had its signalman, who closed the gates ten minutes before the train was due, to the despair of motorists, who often had to wait half an hour for a late train. Now Musselini in a florce at tempt at economy has abolished signaimen and gates and left the public to look out for themselves. How will it answer? There are many more oxcarts than autos in Italy.

Geographical isolation makes the Railroads of Michigan a transportation system like that of no other state. Most of our traffic either originates or ends in Michigan.

Bridge the Great Lakes with car-ferries and tunnel under the mighty connecting rivers, though we may, such accomplishments merely better our service to you; we are Michigan Railroads more than transcontinental traffic lines. Our train schedules are for Michigan, not for New York and San Francisco.

To a degree greater than any other state, Michigan's welfare, and the welfare of her Railroads, are therefore one and inseparable. You cannot fall back on trans-continental lines for emergency help; we must always rely on you for our chief support.

We can prosper only together.

Because of this mutual dependence, the twentyfour Railroads operating in Michigan have formed this Association with the purpose of strengthening the relations of the Railroads with the People of the State, by providing you with a clearing house for the exchange of ideas, relative to the transportation problems so vital to the prosperity of our Peninsular State.

We invite your suggestions toward bringing about a better understanding and closer cooperation between the Public and the Railroads. Communicate with this Association.

(2). They can to grantise a coopered for forty years to be big layers, ative marketing association register. Cottage Prayer meeting Thursday pays to buy them. Yes, hens can change, and ship to it, at Detroit or pay a farmer big. Tell your farm. East Buffalo.

The church welcomes you all to its error of Charged County to do as 1. I notice that cooperative market.

Acte done with bens, and hens will buy their proceeds the year avound."

At the Bay City fair I talked with Mr. Horn, He went onto a small sand, farm, covered with one ging stumps on the Midland Road, out of Bay City, He has presented He stumps on the Middand Road, out of Bay City. He has prospered: He set out fruit trees and took care of them. While waiting for them to bedr he took in lots of money from small things, like vegetables, poultry, eggs, raspberries and particularly strawberries. As his fruit ary strawberries. As his fruit arges took more and more time he reluced the size of the strawberry

patch. Last year, from his half acre Encouraging.

Crawford County has splendid posbilities. The beautiful exhibit of perfect apples, pears, and plums to

turn off.

He makes the culls into cider, vin-egar, etc., just as I have urged our

Opportunity Is Here.

Opportunity is here, rapping at our doors. Must she smash in the door with an ay to make us hear?

with an av to make us hear?
Instead of selling rye for the very low price it now brings (some offer 10 cents a bushel), better grind it for horse feed at the rate of one-third rye to two-thirds obts.

Grind and use in cow feed to displace ground corn in the ration, Mix in some bran to lighten it.

You can get more out of it when properly fed, as above, than you can by selling it. Besides, you keep, the manure from it on the farm.

We ought never to forget fertility; but, you would think that some farmers, thought their fields were rich enough by the way they waste liquid and solid manures.

and solid manures - Bulge Them Out.

cers ret 10 or 12 does it not prove that all of us need to secure better the best way to do that is let the pigs pared by fertilizing and fitting?

Why Not Do These Things?

Grayling and the resort are one of corn. In pigs quick gains in weight are cheapest gains.

Mad Enough to Improve.

When farmers anywhere have stood enough they have generally been goaded to action which led to

improvement.
With local farmers complaining that they cannot get hold of enough money to meet expenses, we are met with the truth that thousands of dol-ings worth of butter, eggs, ice cream, and vegebables are shipped into Graying. This is because our farmers have not gumption enough to produce have things and to offer them in at

rctive form. barmers have the remedy in their evn hands -produce what people

want.

Those who prefer to ship should remember that the State Farm Bureau has at Detroit a Farm Bureau Produce Exchange to which nearly

ity and get enough for them to pay for both the pullets and cockerels we buy as day-old chicks, and for feeding the cockerels to sale time!

"We keep 400 hens. Since January list there have been days that they be sufficiently interested in their hood querrels, to meet at a school house and organize with such an associations. If farmers of a neighborhood do not feel sufficiently interested in their hood querrels, to meet at a school house and organize with such an association, who besides themselves can they blame? Surplus Meat. . . .

Exchange.
I receive a weekly report showing I receive a weekly report showing a mortgage dated the twenty third fust what associations shipped during the preceding week, and how many cars. Anyone calling at the County Agent's office may see the list.

Mr. Farmer!

Mr. Farmer!
Mr. Farmer, how badly do you feel your grievances? Enough to take action to correct them, or just enough to wonder why "they" don't do something that you have not the gumption to do for yourself.

6 miles south of Roscommon on R. F. D. No. 1, Roscommon, Mich. Hugo

To the Honorable Board of Supervisors of the County of Wexford, Michigan.

Michigan.
Gentlemen:
Your petitioner, the Consumers
Power Company, a corporation
authorized to do business in the
State of Michigan, with its principal office in the City of Jackson,
Michigan, represents unto your
bionorable bedy as fellows:
That on October 24, 1918, a permit was granted the Western Michigan Power Company to construct
certain dams on the Manistee River
in Wexford County, at the locations
and of the heights specified in said
permit.

in Wexford County, at the locations and of the heights specified in said permit.

That such rights now vest in your petitioner by proper assignments.

That in said permit, under the head of "locations" is listed and described with other dams, the Yuma Dam, and the location is given as the Northwest Quarter (NW¼) of the Southwest Quarter (SW¼) and the Southwest Quarter (SW¼) of the Northwest Quarter (NW¼) of Section Twenty-one (21). Township Twenty-three (23) North, Range Twelve (12) West. That it is found to be more advantageous to construct the Yuma Dam on the West Half (W½) of the Northwest Quarter (NW¼) of Section Thirty (30), Township Twenty three (23) North, Range Twelve (12) West, which location is in the same township.

That in said permit, under the head of "Height," the Yuma Dam is given as not exceeding thirty (30) feet.

That in case the location of said dam is changed, it is desirable to change the height to not exceeding seventy-five (75) feet, and also to change the name to "County Line Dam."

Your petitioner therefore prays that said permit be amended as follows:

Under the heading of "Leca-

that said permit be amended as follows:
Under the heading of "Lecations," the following language be stricken out:
"YUMA DAM: On the NORTH-WEST QUARTER (NW¼) of the SOUTHWEST QUARTER (SW¼) and the SOUTHWEST QUARTER (SW¼) of the NORTH-WEST QUARTER (SW¼) of the NORTH-WEST QUARTER (SW¼) of Section TWENTY-ONE (21).
Township TWENTY-THREE (23) North, Range TWELVE (12) North, Range TWELVE

and that there be inserted in lieu thereof, the following:

"COUNTY LINE DAM: On the WEST HALF (W½) of the NORTHWEST QUARTER (NW¼) of Section THIRTY (30), Township TWENTY-THREE (23) North, Range TWELVE (12) West."

West."
That under the heading of "Height," the following language be stricken out:
"YUMA DAM, THIRTY (80)

and that there be inserted in Hen thereof, the following:
"COUNTY LINE DAM, SEV-ENTY-FIVE (75) feet."
That in other particulars, said permit shall remain in full force

and effect.
All of which is respectfully sub-

mitted.
Dated at the City of Jackson,
Michigan, this 30th day of August,
A. D. 1928.
